

CAREGIVER-MEDIATED EARLY YEARS SERVICES

Our Caregiver-mediated early years programs support families with children 12 months to 48 months. The programs help young children learn new skills and meet individualized goals. Programs are of no cost and available for up to six months per child for families registered with the Ontario Autism Program (OAP).

Through these programs caregivers learn therapeutic strategies and techniques from professionals based on their child's individual needs. The programs are play-based, child-led and developmentally appropriate.
